RO INSERTURI PENTRU TUBURI
METALICE

APLICAȚII ȘI INSTALARE

APPLICATIONS AND INSTALLATION

ANWENDUNG UND INSTALLATION

APPLICATIONS ET INSTALLATION

ПРИМЕНЕНИЕ И УСТАНОВКА

APLICĂRI ȘI INDUSTRIE

- Mobilier: mese, scaune, lămpi, paturi, structuri de canapea etc.
- Produse cu structuri tubulare, cum ar fi echipament de gimnastică, cărucioare, remorci etc.
- Rame pentru semne publicitare și structuri metalice generale

APPLICATIONS AND INDUSTRIES

- Furniture: tables, chairs, lamps, beds, sofa frames, etc.
- Products with tubular structures such as gym equipment, trolleys, strollers, trailers, etc.
- Signage and metal structures in general.

ANWENDUNGSBEREICHE UND INDUSTRIEGEBIETE

- Innenausstattung/ Möbel: Tische, Stühle, Lampen, Betten, Sofa Gestelle usw.
- Produkte mit Rohr Strukturen wie Fitnessgeräte, Rollwagen, Kinderwagen, Anhänger usw.
- Gestelle für Werbeschilder und allgemein Metallstrukturen

APPLICATIONS ET INDUSTRIES

- Ameublement: tables, chaises, lampes, lits, structures de canapés, etc.
- Produits avec structures tubulaires tels que outils de gym, chariots, poussettes, remorques, etc.
- Structures pour enseignes et structures métalliques en général.

ПРИМЕНЕНИЕ И ПРОМЫШЛЕННОСТЬ

- Мебель: столы, стулья, светильники, кровати, каркасы диванов и т. Д.
- Изделия с трубчатыми конструкциями, такие как тренажеры, тележки, трейлеры и т. Д.
- Рамки для рекламных вывесок и металлоконструкции в целом

GHID PENTRU INSTALARE

- Orice tratament termic sau de suprafață al țevelor trebuie să fie executate înainte de instalarea inserțiilor.
- Inserțiile sunt recomandate pentru țevi din oțel temperat și aluminiu.
- Nu sunt potrivite pentru țevi din oțel inoxidabil.
- Deși este posibil să instalați manual inserțiile (anunț de exemplu cu un ciocan), este indicat să folosiți o presă cu poansonul de mărimea potrivită.

INSTALLATION GUIDE LINES

- Any heat or surface treatment on the tubes must be carried out before installation.
- The inserts are recommended for aluminium and hardened steel tubes. They are not suitable for stainless steel tubes.
- Although it is possible to install the inserts manually (for example with a hammer), it is advisable to use a press with the right size punch.

ANWENDUNGSRICHTLINIEN

- Vor der Anwendung von den Gewindeeinsätzen, sollten die Rohre ggf. Wärme und Oberflächen behandelt werden.
- Die Gewindeeinsätze werden empfohlen für dein Einsatz bei Rohre aus getempertem Stahl oder aus Aluminium. Sind nicht geeignet für Edelstahl Rohre.
- Eine Handinstallation (z.B. mit einem Hammer) ist möglich aber empfohlen wird das einsetzen durch eine Presse mit einem Stempel der genauen Größe.

GUIDE POUR L'INSTALLATION

- Un éventuel traitement thermique ou superficiel des tubes doit être effectué avant l'installation de l'insert.
- Les inserts sont idéaux pour tubes en acier et en aluminium. Ils ne sont pas indiqués pour les tubes en inox.
- Bien qu'il soit possible d'installer les inserts manuellement (par exemple avec un marteau) il est conseillé d'utiliser une presse avec un moule de la bonne dimension.

ИНСТРУКЦИЯ ПО ИСПОЛЬЗОВАНИЮ

- Любая тепловая или поверхностная обработка труб должна быть выполнена перед установкой вкладышей.
- Вставки рекомендуются для труб из закаленной стали и алюминия.
- Они не подходят для труб из нержавеющей стали.
- Есть возможность вручную вставлять вкладыши (объявление например, с помощью молотка), желательно использовать пресс с пуансоном нужного размера.
